**Functions of the State Commission :-**

(1) Subject to the provisions of the Electricity Act, 2003, the Commission shall, except in relation to inter-state operations described in Section 9, discharge the following functions, namely:

- (a) to regulate the operation of the electricity system within the State;
- (b) to regulate the inter-state transmission of electricity and determine the tariff thereof;
- (c) to issue authorizations for transmission, bulk supply, distribution, trading or supply of electricity within the State and determine the conditions to be included in the authorizations;
- (d) to regulate the working of the Authorized Persons and other persons permitted to engage in the electricity industry in the State and to promote their working in an efficient, economical and equitable manner;
- (e) to determine the tariff for sale of electricity, wholesale, bulk, grid or retail, as the case may be, within the State;
- (f) to regulate power purchase and procurement process of the distribution utilities in the State including the price at which the power shall be procured from the generating utilities or from other sources for transmission, sale, distribution and supply in the State;
- (g) to promote competition, efficiency and economy and make avenues for participation of private sector in the electricity industry in the State, and also to ensure a fair dealing to the customers;
- (h) to set and enforce standards for the electricity industry in the State with respect to quality, continuity and reliability of service;
- (i) to lay down and enforce safety standards;
- (j) to aid and advise the State Government in matters concerning electricity generation, transmission, distribution and supply in the State;
- (k) to aid and advise the State Government on any other matter referred to the Commission by such Government;
- (l) to aid and advise the State Government in the formulation of the State Electricity Policy;
- (m) to require its Authorized Persons to formulate perspective plans and schemes for the promotion of generation, transmission, distribution, supply, pooling trading and utilization of electricity in an efficient, economical and equitable manner;
- (n) to co-ordinate with environmental regulatory agencies and to evolve policies and procedures for appropriate environmental regulation of the electricity industry in the State;
- (o) to lay down a uniform system of accounts for its Authorized Persons.
- (p) to collect and record information concerning the generation, transmission, distribution and utilization of electricity,
- (q) to collect and publish data and forecasts on the demand for, and use of, electricity in the State and to require the Authorized Persons to collect and publish such data;
- (r) to dispose appeals and adjudicate upon the disputes and differences between its Authorized Persons and to refer any matter for arbitration;
- (s) to promote equitable supply of electricity for rural areas;
- (t) to promote equitable supply of electricity to economically weaker sections;
- (u) to discharge such other functions as are assigned to it under this Act; and
- (v) to perform such regulatory functions with respect to any other area or sector of the economy as the State Government may prescribe;

2. The State Commission shall exercise its functions in conformity with the National Electricity Plan published under Section 45.

**B. K. DEV VARMA,**

Principal Secretary to the Government of Meghalaya,
